

JIS - Japanese Standards Association

Castings produced to JIS standards

JIS G5101	Carbon steel castings SC360, SC410, SC450, SC480
JIS G5102	Steel castings for welded structure SCW410, SCW450, SCW480, SCW550, SCW620
JIS G5111	High tensile carbon and low alloys steel castings for structural purposes SCC3, SCC5, SCMn1, SCMn2, SCMn3, SCMn5, SCMnCr3, SCMnCr4, SCSiMn2, SCMnCr2, SCMnM3, SCCrM1, SCCrM3A, SCMnCrM2, SCMnCrM3, SCNCrM2
JIS G5121	Stainless steel castings SCS1, SCS2, SCS3, SCS4, SCS5, SCS6, SCS10, SCS11, SCS12, SCS13, SCS14, SCS15, SCS16, SCS17, SCS18, SCS19, SCS20, SCS21, SCS22, SCS23, SCS24
JIS G5122	Heat resisting steel castings SCH1, SCH2, SCH3, SCH11, SCH12, SCH13, SCH15, SCH16, SCH17, SCH18, SCH19, SCH20, SCH21, SCH22, SCH23, SCH24
JIS G5151	Steel castings for high temperature and high pressure service SCPH1, SCPH2, SCPH11, SCPH21, SCPH22, SCPH23, SCPH32, SCPH61
JIS G5152	Steel castings for low temperature and high pressure service SCPL1, SCPL11, SCPL21, SCPL31

If you have a requirement for castings to JIS specifications, contact our sales department.

Goodwin produces many other alloys and specifications - this section gives a typical selection. Should you require information on other cast steel and nickel alloys not listed here then contact Goodwins Technical Department.
